

## BAGSHOT PLAYING FIELD ASSOCIATION

The BPFa is going through an exciting time. We have active and dynamic members of the committee and thanks to them we have exciting ambitions to improve the facilities at the Pavilion. We have installed a new children's playground this spring thanks to successful fund raising and the generosity of Surrey Heath Borough and Windlesham Parish Councils together with local organisations and individuals. Now we want to move on to greater things.

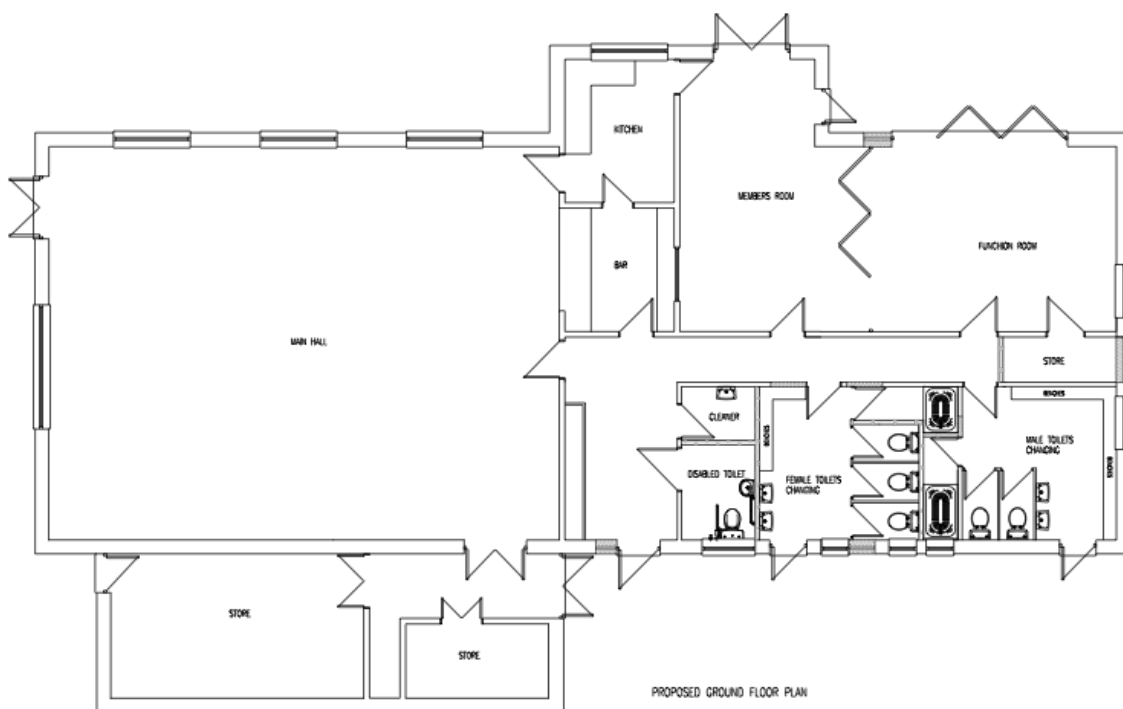

The Pavilion is about 30 years old and although we have a great hall, the rest of the pavilion is in great need of modernisation. In particular the toilets and washing facilities are quite antiquated. The central corridor leading to the Hall is narrow and rather sinister despite being painted in bright colours a year ago.

We are exploring ways of widening the corridor and shortening the vista and at the same time make better use of the inside of the pavilion with some rearrangement of the interior non weight bearing walls. This is only possible if we incorporate the parts of the pavilion which were previously used by adult football. This space is inadequate for present day adult football requirements being far too small as confirmed by the Football Association.

Should the need for adult football in the future arise we would propose allocating an area adjoining the present pavilion for a new purpose built and adequate football Pavilion. This should present no difficulties; Windlesham Field of Remembrance have shown the way having secured substantial grants for their new Pavilion. This way forward enables us to make good use of our present pavilion now with future options open.

We are pleased we now have junior football on site having just signed an agreement with Curley Park Rangers. They play here on Saturday mornings. At present there is much more need for junior than adult football.

We are excited by the prospects for the future and have a great committee. Please support us in our endeavour. Advice and suggestions are always welcome
